

Presented by IPPA's Education Division (IPPAEd)

“Frontiers of Positive Psychology in 21st Century Education” Exploring Science and Practice-Based Opportunities

A Full Day Pre-Conference on Positive Education at ECPP2020

24th June 2020

Harpa Reykjavik Concert Hall and Conference Centre, Iceland.

SAVE THE DATE DETAILS COMING IN EARLY 2020!

Around the world, concerns are growing about students' abilities with 21st century competences, mental health problems, and lack of motivation to learn. How do support student learning and well-being in schools facing the challenges of the future? How do we support teachers? How can we make education more relevant, meaningful and engaging for students and educators, ensuring that schools are preparing young people for successful futures?

The full day pre-conference aims to connect the international positive education community to share innovative research and practical interventions, tools, and processes from around the world, and to bridge research and practice. Participants will learn from one another, and connect with people from around the world.

The International Positive Psychology Association (IPPA) is the only international positive psychology organization. With a leadership team from team from Asia, North America, South America, Europe, and Australia the IPPA Education Division bridges research and practice related to the application of positive psychology in formal and informal educational settings. We facilitate collaboration with members from around the world.
